

DURAPLATE®

AEROSKIRT™

DuraPlate® Trailer Equipped with DuraPlate Aeroskirt™

6.0% FUEL EFFICIENCY IMPROVEMENT

EPA SMARTWAY APPROVED

DURAPLATE BASED PRODUCT

- Built on the proven strength of the DuraPlate composite panel.
- Constructed in three panel sections to streamline installation.
- Lightweight and extremely durable.
- Smooth surface for decal application.

INWARD AND OUTWARD FLEXIBILITY

- Incorporates a proprietary spring bracket design.
- Bilateral flexing allows for inboard or outboard deflection to reduce damage.

LOWER FLEX SECTION

- Flexible PVC lower section remains rigid on the road, but can absorb impacts when hit.
- Constructed in three panel sections for ease of installation and repair.

SIMPLE INSTALLATION

- Easy mount brackets are fastened to crossmembers (4 per side).
- DuraPlate panels are attached to mounting brackets.
- Typical installation = 2 man hours.

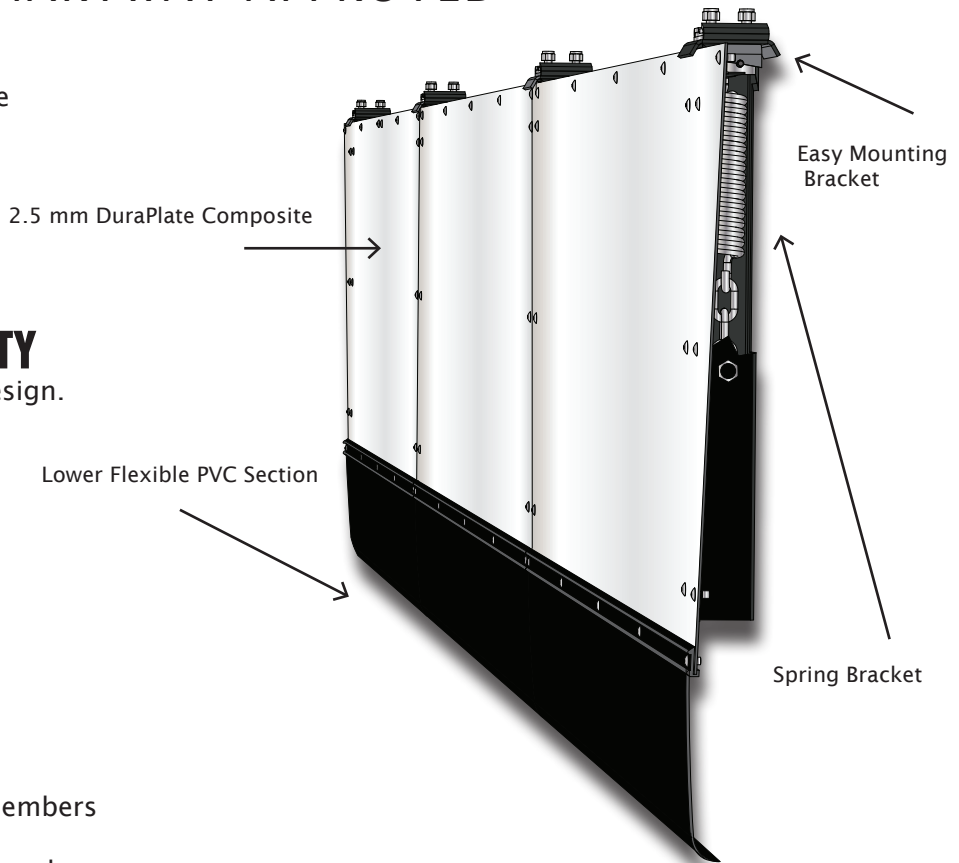

ORDER INFORMATION:

Available on all NEW Wabash National dry or refrigerated van trailers.
